

ORTHOSPINUM

Institute of Orthopedics and Spine Surgery

SPINAL THERAPY

- QUALITY THROUGH SPECIALISATION -

As founder and medical director of **ORTHOSPINUM Dr med. Oliver Oetke** has worked in the field of conservative and surgical spinal therapy for 15 years. Dr Oetke is recognised specialist in the treatment of structural damage to the entire spinal column and holds a master's-level certificate from the German Spine Society (DWG).

Range of spinal treatments:

- Special minimal invasive spinal therapy
- Minimal invasive disc surgery
- Microsurgical decompression of spinal canal
- Total Disc Replacement (TDR)
- Kyphoplasty
- Stabilisation

If a spine surgery is absolutely necessary, Dr Oetke uses the premises of two excellently equipped hospitals in Munich.

EXPERTISE

- THROUGH 15 YEARS' EXPERIENCE -

ORTHOSPINUM offers a varied and extensive range of treatments.

Spinal disorders that can be treated include:

- Neck and back pain
- Disc herniation
- Osteoarthritis of facet joints
- Spinal stenosis
- Vertebral body fractures
- Spondylolisthesis
- Spondylodiscitis
- Rheumatic instability
- Deformities

ORTHOSPINUM also treats disorders of the shoulders, elbows, hands, hips, knees, and feet.

TREATMENT SUCCESSES

- THANKSTO INNOVATIVE PROCEDURES -

As well as offering traditional therapy options, **ORTHOSPINUM** focuses on modern and innovative treatment procedures.

These include:

- Acupuncture
- Hyaluronic acid therapy
- Molecular orthopedics (PRP)
- Shockwave treatment
- 4D spine measurement
- Chirotherapy
- Magnetic field therapy
- Physiotherapy

EXTENSIVE EXPERIENCE AND INNOVATIVE METHODS

ORTHOSPINUM is a centre of excellence for spinal therapy and general orthopedics in the heart of Munich. The practice focuses on the conservative treatment and surgical treatment of spinal disorders.

Our range of services is supplemented by treatment of muscle, tendon and joint disorders to the upper and lower extremities.

As well as offering traditional therapy options, innovative procedures are a particular focus. These include hyaluronic acid, PRP (autologous blood plasma) and shock-wave treatments.

Due to service-oriented procedure examinations and treatments take very little time. Dr Oetke and his team are available for you at any time to restore your movement and mobility so that you can enjoy life in all its facets.
